Note: For our measurement guide, we have two options:

- You can ask a tailor to take your measurements, visit a local tailor and request from them to take your measurements based on our measurement guide. This ensures that the measurement your local tailor will take from you is the same as how we measure.
- Print our guide

We value quality and perfection. We know that every man is different. Your size, posture, figure, and the shape of your body all change the way your trousers fits. This is why we have prepared a comprehensive guide to help you take the perfect measurements for your bespoke pants.

We know that taking measurements can be a chore, so we have worked hard to make it as easy and quickly as possible for you.

What you will need:

A measuring tape

Assistance from a friend

Your best well-fitting suit, shirt, kaftan and pair of trousers (not jeans)

Things to note when taking measurements:

Keep the measuring tape comfortably snug, but not tight.

All measurements should be made to nearest inch / centimeter.
